

## Level 2 Education – Foundation

### Level 2 Education – Foundation

#### Aim

To prepare learners to select features of a specified area of Assistive Technology and Environmental Design for use with clients with less complex needs. These workshops are designed for those who would like to develop or refine skills and knowledge about products available and techniques involved in prescription and/or use.

#### Potential Audience

The content and structure of Level 2 workshops is designed for qualified Health Professionals who have limited experience prescribing a specific area of Assistive Technology. This may include Occupational Therapists, Physiotherapists, Nurses, Ergonomists, and Others.

#### Learning Outcomes

Learning outcomes are specific to each Level 2 workshop.  
Visit [www.yooralla.com.au/ilced.php](http://www.yooralla.com.au/ilced.php) for details.

#### Presenters

These workshops will be presented by professionals who possess specialist knowledge about a particular area of Assistive Technology and Design. Speakers may include Physiotherapists, Occupational Therapists, Architects and Others.

#### Duration

In 2010 Level 2 workshops will be one or two day events.

#### Location

These workshops will primarily be held at ILC Brooklyn. Two rural events are also included in the 2010 program.

#### Cost

One Day Workshops - \$240  
Two Day Workshops - \$440
