

Level 3 Education – Intermediate

Level 3 Education – Intermediate

Aim

To prepare learners to prescribe a specific area of Assistive Technology and Environmental Design for use with clients with more complex needs and to be a reference point for other professionals working in a similar area.

Potential Audience

Qualified Health Professionals who have a moderate level of experience prescribing a specific area of Assistive Technology and would like to develop or refine their knowledge further. This may include Occupational Therapists, Physiotherapists, Nurses and Others.

Learning Outcomes

Learning outcomes are specific to each Level 3 workshop.
Visit www.yooralla.com.au/ilced.php for details.

Presenters

These workshops will be presented by professionals who possess specialist knowledge about a particular area. Speakers may include Physiotherapists, Occupational Therapists, Architects and Others.

Duration

In 2010 Level 3 workshops will be one, two or three day events.

Location

These workshops will be held at ILC Brooklyn primarily but may be held in a rural location.

Cost

One Day Workshops - \$240

Two Day Workshops - \$440

Three day Workshops - \$600
