

So you're finishing school... What's next? Yooralla has programs for you!

If you're interested in a job, studying, volunteering, learning new skills, finding a new place to live, or just having some fun – Yooralla can support you to develop your daily living skills and become more independent at home, school, work and out in the community.

I want therapy support to be more independent

Our team of therapists can provide physiotherapy, occupational therapy, speech pathology, psychology, positive behaviour support, teaching and nursing. We can support you by:

- providing comprehensive assessments, individual and group-based interventions
- improving communication with Augmentative and Alternative Communication (AAC)
- enhancing your mobility and access to local communities
- assessing and making recommendations for basic home and vehicle modifications, and
- enabling you to develop your social skills and form meaningful relationships.

I want to learn new life skills

Yooralla's Community Hub programs across Victoria support you to build your life skills in a safe and supportive environment.

I want to study further

Yooralla's Learning Hubs in Footscray and Broadmeadows, and our Community Hubs in Fawkner and Macey Heights offer a range of non-accredited training courses.

- use technology, including iPads and computers, for personal or work use
- create a pathway from learning to volunteering or work
- build confidence to do things independently, including using public transport
- understand how to manage your money and read signs and documents, and
- get out in the community and enjoy new experiences with friends.

You can also undertake the accredited Certificate I in Work Education through the Learning Hubs to improve your employability and work readiness.

I want to build my job skills and training

Yooralla can customise a job skills program to suit your employment goals and skill set and support you to transition into the right job for you.

I want to start work now

We provide employment through Yooralla Business Enterprises so you can engage in satisfying and rewarding work. Gain skills in workplace behaviour, hygiene in the workplace, machinery operation, packing of goods, food handling, customer service and planning your work activities.

I need support to implement my NDIS plan

If you are funded for Support Coordination in your NDIS plan, we can support you to understand and implement your plan. We can help you find the right service providers and coordinate your supports, including mainstream, informal, community and funded supports. We also offer Specialist Support Coordination for people with complex support needs.

Even if you're not funded for Support Coordination, we can support you with your NDIS plan through Yooralla's free NDIS consultations.

I want to do something fun!

Take part in fun, adventurous or relaxing activities that you enjoy. Our services can support you during the day, overnight, over a weekend or even to go on a holiday.

I want support to do things my way

Yooralla can work with you one-on-one at your home or in the community to design supports that are important to you. This may include personal support to learn how to drive, swim, cook, catch transport or other activities of your choice.

I want to move out of home

Yooralla has a range of accommodation options across metropolitan Melbourne and regional Victoria. We can assist you to find the right accommodation.

Our Supported Independent Living has tailored support arrangements, experienced staff and a healthy eating program. We understand how important it is to have privacy while living in shared accommodation and to feel valued, included and safe.

I want to take a break

In Yooralla's respite (short-term) accommodation, you can stay for a day, overnight, a weekend, a few weeks, a planned rest, an emergency visit, regularly or occasionally. We plan activities and outings and help you build new social connections.

Yooralla has short term accommodation (respite) for adults in Melbourne's East. We also have specialist high level 24-hour support respite for people who are ventilator-dependent, in Melbourne's North.

Support to navigate the NDIS

Yooralla holds free NDIS consultations and publishes free NDIS guides to help you to understand the NDIS at any stage of your journey.
