

Box Hill Community Hub

Safe and supportive community-based programs for people with disability

Our Box Hub focuses on developing your fine motor skills and social interactions and has strong links with the local community and surrounding areas.

The Hub is fitted with ceiling and manual hoists. Manual handling and meal assistance is provided. Our staff work closely with Speech Therapists to support you with electronic communication devices.

Suitable for people with disability aged 18+ who would like to take part in educational, recreational, creative, social and workplace skills activities.

Participate in person or online. Your program can be tailored to your interests to enhance your life skills, independence and wellbeing. If there is a something you would like to do but don't see it on our current list, please tell us so we can work with you to design your program.

Designed by you, supported by us, and achieved together

Yooralla works with customers to provide safe, supportive and interesting programs for people with disability. We know the NDIS and tailor supports for all ages and requirements. We are proud to be an organisation that learns and grows.
